Cultivation ideas for growth

Manufacturers & Retailers of
Organic Fertilizers & Agricultural
Products

About Us

Parnav Retail Store

Parnav Retail Store is dedicated to delivering high-quality organic fertilizers and agricultural products to farmers, retailers, and distributors. We focus on providing reliable solutions that support sustainable farming and improve crop productivity. With a customer-first approach, we ensure consistent supply, trusted service, and practical agricultural solutions.

Parnav Industries

Parnav Industries is engaged in the manufacturing of organic fertilizers using quality raw materials and controlled processes. Our aim is to produce effective, eco-friendly products that enhance soil health and promote natural plant growth. We maintain quality standards to ensure every product meets the needs of modern agriculture.

Our Vision

To support sustainable agriculture by making organic and eco-friendly farming solutions accessible to every farmer.

Our Mission

To manufacture and deliver reliable organic products that improve soil fertility, increase crop yield, and build long-term trust with our customers.

Our Story

At Parnav, our journey began with a simple understanding — healthy soil is the foundation of healthy crops. Over time, we observed the growing impact of chemical-based farming on soil quality and crop sustainability. This inspired us to move towards organic solutions that support both farmers and the environment.

With this vision, Parnav Industries started manufacturing organic fertilizers using natural inputs and controlled processes. As the demand for reliable and accessible products increased, Parnav Retail Store was established to bring these solutions directly to farmers, retailers, and distributors.

Today, we continue to work with the same commitment — to provide effective, eco-friendly products that help improve soil health, enhance crop productivity, and support sustainable agriculture.

Why Organic Fertilizers?

Improve long-term soil fertility

Support natural microbial activity

Safe for crops, farmers, and environment

Reduce dependency on harmful chemicals

Promote sustainable and eco-friendly farming.

Our Product Categories

We offer a wide range of organic and agriculture-focused products designed to support soil health, plant growth, and overall crop productivity.

- **Organic Fertilizers**

Natural fertilizers that improve soil fertility and provide essential nutrients for healthy plant growth.

- **Soil Conditioners**

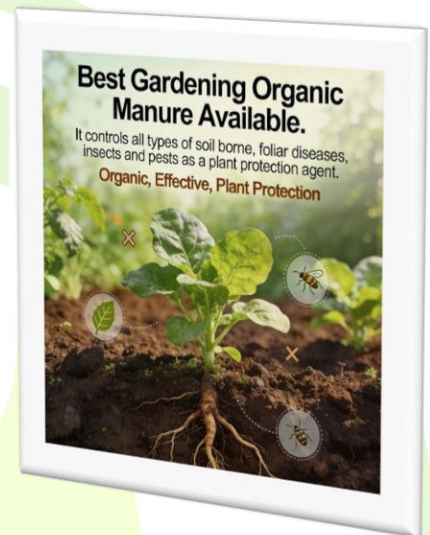

Products that enhance soil structure, improve aeration, and increase water retention capacity.

- **Plant Growth Boosters**

Specially formulated solutions that promote faster growth, stronger roots, and higher crop yield.

Crop Care Solutions

Products designed to protect plants and support overall crop health in a natural and sustainable way.

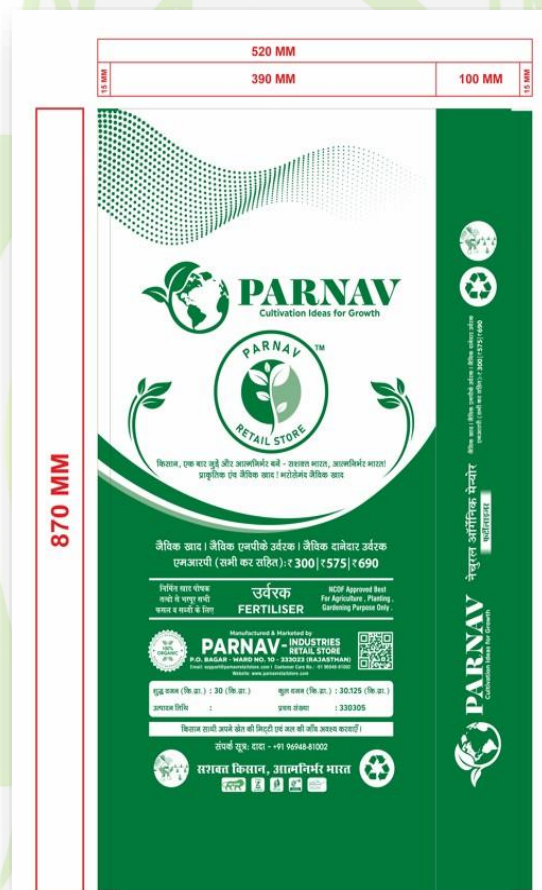

A. Organic & Natural Manure

PRODUCT OVERVIEW

A high-quality organic solution designed to improve soil health, support plant growth, and enhance overall crop productivity in a natural and sustainable way.

- Key Benefits
 - Improves soil fertility and structure
 - Promotes strong root development
 - Enhances nutrient absorption
 - Increases crop yield and quality
 - Eco-friendly and safe for all crops
- Usage Instructions
 - Apply directly to soil before or during planting
 - Mix well with soil for better results
 - Suitable for vegetables, fruits, and field crops
 - Use at regular intervals as required
- Available Packaging
 - 1 Kg
 - 5 Kg
 - 30 Kg
 - 50 Kg

B. Organic Bio NPK Fertiliser

CUSTOM NPK RATIO AS PER SOIL TESTING

Product Overview

Organic Bio NPK Fertiliser is a customized nutrient solution designed to deliver balanced plant nutrition based on soil testing reports. Formulated in granular form with customized organic NPK minerals, it ensures uniform application, better nutrient availability, and improved soil health for sustainable crop production.

- Key Benefits
- Customized NPK ratio based on soil requirements
- Balanced supply of Nitrogen (N), Phosphorus (P), and Potassium (K)
- Easy application due to granular form
- Improves soil structure and moisture retention
- Enhances microbial activity
- Supports higher yield and better crop quality

- Product Features

- Form: Granules (Moisture Stable)
- Application Areas: Agriculture, Plantation, Soil Conditioning
- Base Composition: Organic mineral blend including Gypsum & Phosphate
- Special Feature: Custom formulation as per soil testing

- Usage Instructions

- Apply as per soil test recommendation
- Broadcast evenly across the field
- Mix with soil for effective absorption
- Irrigate after application for better absorption

Bulk Supply (On Demand)

C. Organic Bio Granules

BALANCED ORGANIC NUTRITION FOR SOIL & CROP HEALTH

Product Overview

Organic Bio Granules are a high-quality organic formulation designed to improve soil fertility and support healthy plant growth. Manufactured in uniform round granule form (approx. 4 mm size), these granules ensure easy application, even distribution, and gradual nutrient release for long-lasting soil conditioning.

· Why Use It?

Bio-granules not only promote strong and healthy plant growth but also act as an effective soil health reviver. They enhance microbial activity, enrich essential soil nutrients, and support the restoration of long-term soil fertility in a natural and sustainable way.

· Key Benefits

- Uniform round granules for easy and even application
- Enhances soil fertility and structure
- Promotes strong root development
- Improves nutrient absorption efficiency
- Supports healthy and uniform crop growth
- Eco-friendly and safe for all crops

- Product Features

- Form: Round Granules (Approx. 4 mm Size)
- Shape: Spherical / Ball-Type Granules
- Release Type: Slow & Controlled Nutrient Release
- Application Areas: Agriculture, Plantation, Gardening
- Base Composition: Organic nutrient blend with natural minerals

- Usage Instructions

- Apply evenly across soil before sowing or during crop growth
- Broadcast granules uniformly for best results
- Mix with soil for better effectiveness
- Irrigate after application

Product Packaging & Price List

Product Name	Pack Size	Packaging Type	Price (₹)
A. Organic & Natural Manure	1 Kg	Pouch	20
B. Organic Bio NPK Fertiliser	1 Kg	Pouch	25
C. Organic Bio Granules	1 Kg	Pouch	30
D. Organic & Natural Manure	5 Kg	Pouch	90
E. Organic Bio NPK Fertiliser	5 Kg	Pouch	110
F. Organic Bio Granules	5 Kg	Pouch	150
G. Organic & Natural Manure	30 Kg	BOPP Laminated Bag	300
H. Organic Bio NPK Fertiliser	30 Kg	BOPP Laminated Bag	575
I. Organic Bio Granules	30 Kg	BOPP Laminated Bag	690
J. Organic & Natural Manure	50 Kg	BOPP Laminated Bag	450
K. Organic Bio NPK Fertiliser	50 Kg	BOPP Laminated Bag	750
L. Organic Bio Granules	50 Kg	BOPP Laminated Bag	960

Important Note

Prices are subject to change based on market conditions and order quantity.

Please confirm the latest pricing before placing orders.

· CERTIFICATIONS / QUALITY ASSURANCE

Quality & Assurance

At Parnav, quality is at the core of everything we do. Our products are manufactured using carefully selected raw materials and controlled processes to ensure consistency, safety, and effectiveness.

· Quality Commitment

Use of high-quality organic and mineral inputs

Controlled manufacturing processes

Consistent product performance

Focus on soil health and sustainability

· Organic Approach

Our products are developed with a focus on eco-friendly and sustainable farming practices, supporting long-term soil fertility and environmental balance.

· Manufacturing Standards

Hygienic and controlled production environment

Proper storage and handling practices

Quality checks at multiple stages

· Assurance to Customers

We are committed to delivering reliable agricultural solutions that meet the practical needs of farmers, retailers, and distributors.

PROCUREMENT PRICE LIST (FACTORY RATES WITH MOQ)

1. Organic & Natural Manure

Pack Size	Price (INR)	MOQ (Minimum Order Quantity)
1 Kg Kit	₹20	100 Kits
5 Kg Kit	₹90	50 Kits
30 Kg Bag	₹300	100 Bags
50 Kg Bag	₹450	30–50 Bags

2. Organic Bio NPK Fertiliser

Pack Size	Price (INR)	MOQ (Minimum Order Quantity)
1 Kg Kit	25	100 Kits
5 Kg Kit	110	50 Kits
30 Kg Bag	575	100 Bags
50 Kg Bag	750	30–50 Bags

3. Organic Bio Granules

Pack Size	Price (INR)	MOQ (Minimum Order Quantity)
1 Kg Kit	₹35	100 Kits
5 Kg Kit	₹150	50 Kits
30 Kg Bag	₹690	100 Bags
50 Kg Bag	₹960	30–50 Bags

· Procurement Notes:

- All prices are factory fixed rates
- MOQ strictly applicable for order processing
- Dispatch planning based on order volume & packaging type
- Transport, logistics & handling extra (as applicable)

· Quality & Compliance:

- 100% Organic & Chemical-Free Products
- Tested & certified for Agriculture & Gardening Use Only
- Supports Soil Health & Microbial Culture Development
- Designed for consistent field performance

Special Note: These prices are applicable only for Rajasthan state supply and for delivery within 100 KM from Parnav Retail Store.
